## **COMMENTS REGARDING THE TABLE FROM POINT A**

(1) The amounts in the table concern only duly registered students (the amounts for auditing students and students on single module courses are not included here: for single module courses, it is the institutions that determine the amount of tuition fees due).

Moreover, the amounts shown do not include any increased fees that may be collected for certain categories of non-subsidised students except for the reductions listed in point 1.

(2) When a student is registered on several courses during the same academic year, one of the registrations is considered as primary, while the others are considered as secondary (registrations referred to as being "additional tests" in Article 39 of the law of 27/7/1971). The tuition fees for these so-called "additional" registrations are added to those for the primary registration.

(3) These amounts are fixed by law.

(4) The provisions of Article 39 paragraph 2 of the law of 27/7/1971, fixing the fees for the AESS and CAPAES, were extended (by article 26 of the decree voted on 16/12/2009 in the Parliament of the French Community) for students who register for "another focus of the same Master's". This new provision aims to respond to the difficulties encountered because of the difference in the price of the AESS and a teaching-focused Master's for graduates of a 120-credit Master's degree of another focus of the same curriculum.

(5) Under the joint decision adopted by the rectors at the meetings of CRef on 7<sup>th</sup> February and 5<sup>th</sup> May 2006.

(6) Annual limit. This amount cannot be claimed from grant holders, scholarship students or from those with a low income.

(7) This applies to any grant holder or scholarship student (SAE and DGCD) who is eligible under this or any other registration.
