

UMONS: 2026-2027 ADMISSIONS GUIDE

For reasons of reading ergonomics, this document is not written in inclusive language. It is nonetheless addressed to both men and women, as well as non-binary individuals.

In the event of a divergence between the different linguistic versions of these regulations, the French version shall prevail.

This guide is intended for applicants applying for admission to UMONS and is intended to draw attention to the important elements that they should pay attention to before submitting the online application for admission and, if applicable, the application for registration.

The application must be completed and submitted by the applicant [...]. The candidate is solely responsible for the content of their application file (Article 3 of the Admissions Regulations).

The applicants also ensure that they can access their email address if their application is accepted. This address is required to submit the online application via the account created when applying for admission.

In the case of a renewal application¹, the applicant must create a new account and complete a new application for admission. In step 3, the applicant must specify the reference of the initial file.

If your application is a renewal of an application for which you were admitted the previous academic year, please indicate the initial reference :2025/ADM/

The new application must include at least all the same documents as those constituting the initial application (since obtaining the title attesting to the successful completion of secondary studies to date) as well as supporting documents for the year 2025-2026 and documents **removing any reservations issued by the Jury for its acceptance in 2025-2026.**

The candidate must refer to the letter of acceptance of his initial application. He must also attach this letter to step 11 of the application in "other document to be sent not present in the list above".

Please note that the 2026-2027 academic criteria are applied. The candidate who renews his application must ensure that he responds to it.

Note : the UMONS links in this guide refer to the University's website for information for the 2025-2026 or 2026-2027 academic year. The pages are updated according to the information available.

¹ Renewal = application for admission for year n following acceptance of the initial application for admission in year n-1 for the same course and the same classification of the cycle for which the board gave its decision in year n-1. Renewal is possible only once.

Consult the web pages concerning applications for admission.

Information on admissions can be consulted on [the web pages of the Registration Office](#).

They are linked to the candidate's profile, his or her academic background, and the course and cycle to which he or she wishes to be admitted.
